Dec. 10th, 1859. NEW ENGLAND AILMENTS

TIME Eastern States, including New York and that section of the Union which is most widely known as "New England," contain a thrifty, industrious, intelligent people, who have achieved an uncommon degree of prosperity: with a climate extremely trying to certain constitutions, and a soil of small fertil ity, they have contrived to surpass more favored communities in almost every thing that con. duces to social comfort and happiness. Unfortunately, they are occasionally so absorbed in business and mental cultivation, that they neglect the precautions which are essential to bodily health. Dyspepsia and physical debility are prevalent among all classes. The first dis-ease is produced by inattention to the digestive organs, which are so susceptible of derangement. Thousands are now paying the penalty of this neglect, and suffering daily the most trying pains, almost without a hope of relief. They have come to believe that their ailment is chronic, and that they must bear with it to the end. It gratifies us exceedingly to announce to these afflicted individuals that they may now command a remedy of unquestionable potency and virtue, which has never been found to fail in all cases of digestive weakness or derangement. Hundreds of tongues are ready to grow eloquent in praise of this wonderful conqueror of dyspepsia, which is known as

DR. J. HOSTETTER'S CELEBRATED STOMACH BITTERS But that numerous class who devote them.

selves to literary and other sedentary pursuits. and in consequence of a want of physical exercise, become the victims of languor and debility, without nerve or appetite, have hitherto sought in vain for some invigorating, life-giving medicine, whose effects upon the system shall be both speedy and permanent. Physicians of eminence, and profoundly acquainted with the requirements of the human frame, commend HOSTETTER'S BITTERS as the safest and swiftest stimulant to the recuperative energies of the system yet discovered. It restores the appetite, gives fresh vigor to the digestive organs, sends the blood through the veins with a more lively current, corrects a tendency to depression of spirits, and fits a man for the transaction of business with a cheerful heart and an active mind. Unlike other medicines which have been devised for the same object, the BITTERS do not act spasmodically, or with a temporary power - the influence of the remedy is lasting. And if a patient will but give some attention to securing proper exercise, after the relief has been afforded, he need fear no return of the affliction. The debility natural to the encroachments of years upon the bodily frame is also alleviated by this great strengthening medicine, thus enabling the aged to pass their declining days in physical ease; whereas they are now suffering from extreme weakness and nervousness. To this venerable class of people, HOSTETTER'S BITTERS may be commonded as invaluable. The proprietors of this invigorator have in addition, a deep gratification in assuring

tioned by physicians as proper to be administered during the period of nursing; and this has obtained an universal preference. These who desire to purchase this great remedy i ? Dyspepsia and Debility should remember the precise title, HOSTETTER'S CELEBRATED STOMACH BITTERS. It is put up in quart bettles, with the name, DR. J. HOSTETTER'S STOMACH BITTERS, blown on the bottle, and also stamped on the cap covering the cork, with the autograph of HOSTETTER & SMITH on the label. These things are important, on account of the numerous counterfaits
